

City of Marshfield Benchmarks

Sea level datum with origin at W7 of U.S. Coast & Geodetic Survey first order leveling. Unless otherwise noted, Bench Marks are located on fire hydrants. They consist of a one inch stainless steel disc stamped with the number of the bench mark and the letters "BM". The disc is fastened to the hydrant with a steel drive pin. The elevation is read on the head of the drive pin.

Do not use if the disc is not affixed to the hydrant or does not clearly indicate the benchmark number, or the disc does not match the benchmark location as described.

The City of Marshfield is not responsible for incorrect data or improper/illegal use of the data.

Last Record Updated: 11/13/2019

BM Number	Year	Elevation (ft)	Last Updated	Location
1	2015	1285.37	8/10/2015	SE corner of 2nd and Spruce
